

NEW HAMPSHIRE

Drinking Water Festival

Drinking Water Festival - State-wide 4th Grade Water Science Fair

State-wide Water Poetry Contest

May 8, 2024—Plymouth, NH

The NH Drinking Water Coalition Needs Your Support!

Each year the NH Drinking Water Coalition celebrates National Drinking Water Week by hosting a Drinking Water Festival and State Science Fair competition for NH students. The coalition is comprised of many organizations including NH Water Works Association, Granite State Rural Water Association, Rural Community Assistance Partnership, NH Department of Environmental Services, municipalities, and others.

This year's festival will take place in Plymouth. We will also be holding the state-wide finals of the Water Science Fair and a Poetry Contest. We look forward to welcoming 300+ fourth graders to participate in hands-on activities and exhibits that will teach them about water use, conservation, pollution and many more topics. The grand finale is the science fair project competition and awarding of the winners.

Festival events include:

- ◆ Hands on water activities
- ◆ Educational displays & exhibits
- ◆ Presentations from water professionals
- ◆ Live water-themed performance

The Coalition is a non-profit organization that relies on donations to host the festival and science fair each year. Donations are tax deductible and donors will be recognized during the festival, in NH Water Works Association's summer newsletter and on the [NH Water Festival website](#).

Name _____ Email _____

Company _____
