

****Call for Participation****

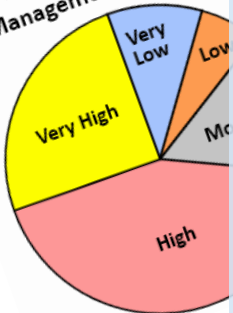

GPN (formerly URISA) is conducting a survey on GIS management. The purpose of the survey is to gather information on current GIS program and project management approaches, from a wide range of organization types (public sector, utility, non-profit, private sector, university), in order to gain insights and assess trends in GIS management practices. The results will be of value to GIS managers, researchers and educators, and private companies providing GIS products and services. This is an update to the 2019 GIS Management Survey.

If you are a manager of a GIS program or project, we ask for your response to this survey by **January 31, 2026**. We encourage responses, whether or not you are a GPN member. Access the survey form at:

<https://www.surveymonkey.com/r/FH33GQY>

All respondents will receive, at no cost, a summary report (digital) of the survey results. We will restrict publication or distribution of any personal or organizational identification information.

Level of Centralization of GIS Management/Support

Survey topics:

- Respondent Information
- Organization and GIS Program Type
- GIS Program Mission and Scope
- GIS Technical Architecture and Resources
- GIS Program Org Structure and Governance
- GIS Program Administration and Staffing

<input type="checkbox"/> No Formal Mandate or Instrument	<input type="checkbox"/> Contract with Private Sector Entity
<input type="checkbox"/> Legislative Statute, Regulation, or Ordinance	<input type="checkbox"/> Program or Project Charter
<input type="checkbox"/> Legislative Resolution	<input type="checkbox"/> Formal Policy
